MCON'17

National Conference on Moalejat
"Relevance of Unani Medicine in
Non-Communicable Diseases"

21-22 March 2017

Organized by

Department of Moalejat
Ajmal Khan Tibbiya College
Faculty of Unani Medicine
Aligarh Muslim University, Aligarh

MESSAGE

Dear Friends and Colleagues,

We feel great pleasure and an honour to extend to you a warm invitation to attend the National Conference on Moalajat "MCON 17" with the theme "Relevance of Unani Medicine in Non communicable diseases" on 21-22 March 2017, organised by Department of Moalejat, Ajmal Khan Tibbiya College, Aligarh Muslim University Aligarh. The event is meant to provide a platform for interaction between eminent researchers, academicians and physicians and to update the theoretical knowledge and the practical skills of our colleagues working in the field of Unani Medicine.

This conference will encompass invited lectures from Unani Medicine and Allied sciences. The panel discussion and interactive sessions will also be a part of this conference.

It is the need of the hour to support the National Health Care needs and to cater the global populace. This requires better training and education of Unani graduates and validation of various therapies and theories of this system. The conference will help to establish credibility or transforming the experience-based claims into evidence-based claims. However, the question of how to address the need for both individualizing and standardizing treatment with herbs is a major issue which needs to be addressed. The Conference will provide a wonderful forum for you to refresh your knowledge base and explore the innovations in Moalajat. We hope you will join us and take a little extra time to enjoy the conference.

Prof. Tanzeel Ahmad **Prof. Misbahuddin Siddiqi**
Co- Organising Secretary Organising Secretary

SUB THEMES
