About Aligarh Muslim University

Sir Syed Ahmad Khan, a great social reformer of his time started a school in 1875 which later became the Mohammadan Anglo Oriental College and finally Aligarh Muslim University in 1920. It is located in the city of Aligarh, UP, India about 130 km away from Delhi. Modeled on the pattern of University of Cambridge, it is one of the premier institutions of higher learning. It is a residential central university offering more than 280 courses in various discipline.

About Department of Chemistry

The Department of Chemistry is one of the oldest departments in the University with its long tradition of high quality research and teaching. The foundation of the present building was laid down in 1926. The department offers B.Sc. (Hons) and M.Sc. Programs in Chemistry as well in Industrial Chemistry along with M.Phil and Ph.D. programs in Chemistry. During the last five years, the faculty members of this department have published 300 research papers in national and international journals, 82 research scholars have been awarded Ph.D degree under their supervision and 21 research projects have been successfully completed. Currently the department is funded by DRS-II (SAP), DST (FIST & PURSE)

About the Conference

The Department of Chemistry of Aligarh Muslim University, under the DRS-II (SAP), DST-PURSE and FIST program, is going to organize National Conference on **RECENT ADVANCES IN CHEMICAL SCIENCES** on March 25-26, 2017.

The event is intended to provide a common platform for interactions to the researchers and academicians working in different areas of Chemistry. The conference will open new doors of scientific works to face new challenges in chemistry for the betterment of life.
