NOTICE

This is to bring to your kind notice that this faculty enjoys the privilege of being younger, aspiring and energetic. The infrastructure and physical environment available to us is also relatively fresh and greener to reflect our high ambitions and advanced approach to education, research and extension.

In this backdrop, it is a matter of great concern that sometimes we ignore a few small things in the pursuit of matters higher in our agenda. And it is concerning the placement of our vehicles, valuable assets and maintenance of decency in our rooms, labs and surrounding corridors and passages. It doesn’t reflect a disciplined and orderly class of achievers of high standards. Very often we feel ashamed and humiliated before any dignitary or guest visiting us here.

I therefore make a humble request to each and every member of our esteemed departments and offices of the faculty to personally contribute his/ her attention to maintain and monitor the orderly placement of vehicles and other assets in the premises of the faculty.

Looking forward to your kind cooperation to this noble cause.

(Prof. Shamin Ahmed)
Dean
Faculty of Agricultural Sciences
