National Conference on Determination of Temperament (Mizaj)

06-07 February 2018

Different aspects of determination of Mizaj shall be reviewed by application of modern tools to establish its reliability and usefulness. Concentrated effort will be made to identify the areas of research and provide an opportunity for researchers to present their work.

A Pre-Conference workshop will be held on Day 1 of the conference with the Objectives:
- BMR and its methods of measurement,
- Indirect Calorimetry and respiratory quotient (RQ),
- Measurement of Oxygen consumption by Benedict Roth apparatus (Theory and Demo),
- Genetics and BMR,
- Is BMR related to temperament (mizaj)? How can it be correlated?

Organising Secretary
Dr. Farooq Ahmad Dar
Joint Organising Secretary
Dr. Aisha Aijaz
Organising Chairman
Prof. Iqtidarul Haian Zaidi
