All Deans of the Faculties
All Chairmen of the Departments of Studies
All Principals of Colleges/Schools/Polytechnics
All Coordinators/Directors of Centres/Institutes etc.

It has been observed that fans/desert coolers/air conditioners remain in running conditions even if rooms/class rooms etc. are not occupied by any one. This practice of running appliances not only increases electricity bills of the University but it is also a national loss.

Time and again request is made to conserve electricity in whatever way we can. All concerned are once again requested to cooperate and make all possible efforts to ensure that electrical appliances are switched off when the rooms are vacant.
