FROM THE DESK OF ORGANIZING SECRETARY:

Surgery is a rapidly evolving field due to constant changes in practice guidelines based on evidence-based approach. For optimizing patient care it is imperative that doctors should keep themselves abreast with the latest developments in medical sciences.

The Update will cover several important topics pertaining to surgery with emphasis on recent advances and current concepts which shall be deliberated upon by renowned subject experts. We are very hopeful that the update shall greatly benefit all the participants especially the budding surgeons as well as post graduate students of surgery. The Surgery Update shall also provide a platform for exchange of ideas and promote camaraderie amongst surgeons.

Dr. Atia Zaka-ur-Rab
