NOTICE

I have been directed by the Competent Authority to request all concerned to take steps for the purposes of electricity conservation. This is because all of us must be aware that AMU is paying a whooping amount of about 2.5 crores per month for its electricity consumption.

The following simple steps may be taken for reducing electricity consumption:

(i) Operate the Air Conditioners at a Temperature of 24 to 25°C.
(ii) Ensure regular cleaning of the air-filters.
(iii) Only energy efficient devices must be used, if required, with utmost care and minimum possible running time.
(iv) The rooms/offices where ACs/Heating devices are installed must be insulated from outside by using door stoppers etc.
(v) All users concerned must ensure regular cleaning of filters of ACs.
(vi) The use of ornamental lights in the campus must be stopped or minimized to bare essential.
(vii) Replacing the wasteful filament lamps with energy efficient LEDs present a highly efficient option for energy conservation.
(viii) Wasteful use of electricity especially during day-time must be stopped and a regular check must be maintained.

It has also come to the notice that some functionaries of AMU have changed the failed/fused/malfunctioned LED lights from their own resources. Hence, this is also bring into kind notice that LED lights which have been installed in different places at AMU are within warranty period. In case of a failure of any LED bulb/tube light you can bring them to the Electricity Department so that it can be replaced with its cost or minimizing cost.
