Prof. G. Pugazhenthhi
Organizing Chairman, GATE 2018
(on behalf of NCB – GATE, for MHRD)

The GATE 2018 score is calculated using the formula

\[ GATE \text{ \ Score} = M_s + (S_e - S_q) \left( \frac{M - M_e}{M_e - M_q} \right) \]

where,
- \( M \) is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard
- \( M_q \) is the qualifying marks for general category candidate in the paper
- \( M_e \) is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
- \( S_e = 350 \), is the score assigned to \( M_e \)
- \( S_q = 900 \), is the score assigned to \( M_q \)

In the GATE 2018 score formula, \( M_s \) is 25 marks (out of 100) or \( \mu + \sigma \), whichever is greater. Here \( \mu \) is the mean and \( \sigma \) is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2018 was organized by Indian Institute of Technology Guwahati on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Human Resource Development (MHRD), Government of India.
The GATE 2018 score is calculated using the formula

\[ GATE\ Score = S_q + (S_t - S_q) \left( \frac{M - M_q}{M_t - M_q} \right) \]

where,
- \( M \) is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard
- \( M_q \) is the qualifying marks for general category candidate in the paper
- \( M_t \) is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
- \( S_q = 350 \) is the score assigned to \( M_q \)
- \( S_t = 900 \) is the score assigned to \( M_t \)

In the GATE 2018 score formula, \( M \) is 25 marks (out of 100) or \( \mu + \sigma \), whichever is greater. Here \( \mu \) is the mean and \( \sigma \) is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

The GATE 2018 score is calculated using the formula

$$\text{GATE Score} = S_1 + \left( S_2 - p_1 \right) \left( \frac{(M - M_u)}{(\bar{M} - M_u)} \right)$$

where,

- $M$ is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard.
- $\bar{M}$ is the qualifying marks for general category candidate in the paper.
- $M_u$ is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions).
- $S_1 = 350,$ is the score assigned to $M$.
- $S_2 = 500,$ is the score assigned to $\bar{M}$.

In the GATE 2018 score formula, $M_u$ is 25 marks (out of 100) or $\mu \pm \sigma$, whichever is greater. Here $\mu$ is the mean and $\sigma$ is the standard deviation of marks of all candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/fellowship. Admitting institutes may conduct further tests and interviews for final selection.

(on behalf of NCB - GATE, for MHRD)
March 17, 2018

The GATE 2018 score is calculated using the formula

\[ GATE \text{ Score} = S_q + \left(S_e - S_q\right) \frac{(M - M_q)}{(M_1 - M_q)} \]

where,
- \( M \) is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard
- \( M_q \) is the qualifying marks for general category candidate in the paper
- \( M_1 \) is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
- \( S_q = 350 \), is the score assigned to \( M_q \)
- \( S_e = 900 \), is the score assigned to \( M_1 \)

In the GATE 2018 score formula, \( M_q \) is 25 marks (out of 100) or \( \mu + \sigma \), whichever is greater. Here \( \mu \) is the mean and \( \sigma \) is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistance ship. Admitting institutes may conduct further tests and interviews for final selection.

- U – Food Technology

Graduate Aptitude Test in Engineering (GATE) 2019 was organized by Indian Institute of Technology Madras on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Human Resource Development (MHRD), Government of India.
The GATE 2019 score is calculated using the formula

\[ GATE \text{ Score} = S_e + \left( S_i - S_e \right) \frac{(M - M_e)}{(M_e - M_i)} \]

where,
\( M \) is the marks obtained by the candidate in the paper, mentioned on this GATE 2019 scorecard
\( M_e \) is the qualifying marks for general category candidate in the paper
\( M_i \) is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
\( S_e = 350 \), is the score assigned to \( M_e \)
\( S_i = 900 \), is the score assigned to \( M_i \)

In the GATE 2019 score formula, \( M_e \) is 25 marks (out of 100) or \( \mu + \sigma \), whichever is greater. Here \( \mu \) is the mean and \( \sigma \) is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2019 does not guarantee either an admission to a post-graduate program or a scholarship/assistance. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2018 was organized by Indian Institute of Technology Guwahati on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, MHRD, Govt. of India.
The GATE 2018 score is calculated using the formula

$$GATE \ Score = S_q + (S_e - S_q) \frac{(M - M_q)}{(M_e - M_q)}$$

where,

- $M$ is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard.
- $M_q$ is the qualifying marks for general category candidate in the paper.
- $M_e$ is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions).
- $S_q = 350$, is the score assigned to $M_e$.
- $S_e = 900$, is the score assigned to $M_e$.

In the GATE 2018 score formula, $M_q$ is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here $\mu$ is the mean and $\sigma$ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Codes for XE and XL Paper Sections (compulsory section and any other two sections)

- U – Food Technology

Graduate Aptitude Test in Engineering (GATE) 2018 was organized by Indian Institute of Technology Guwahati on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Human Resource Development (MHRD), Government of India.
The GATE 2018 score is calculated using the formula

\[ GATE\ Score = S_x + \left( S_2 - S_1 \right) \left( \frac{M - M_0}{M_1 - M_0} \right) \]

where,
- \( M \) is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard
- \( M_i \) is the qualifying marks for general category candidate in the paper
- \( M_1 \) is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
- \( S_x = 350 \), is the score assigned to \( M_i \)
- \( S_1 = 900 \), is the score assigned to \( M_1 \)

In the GATE 2018 score formula, \( M_i \) is 25 marks (out of 100) or \( \mu + \sigma \), whichever is greater. Here \( \mu \) is the mean and \( \sigma \) is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistancehip. Admitting institutes may conduct further tests and interviews for final selection.

(on behalf of NCB – GATE, for MHRD)

Digital Fingerprint: 2d7be12a465b6f577d3491ca776f17a9

The GATE 2018 score is calculated using the formula

GATE Score = S_q + (S_e - S_q) (M - M_q) / (M_e - M_q)

where,
M is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard
M_q is the qualifying marks for general category candidate in the paper
M_e is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in
the paper (in case of multi-session papers including all sessions)
S_e = 250, is the score assigned to M_e
S_q = 900, is the score assigned to M_q

In the GATE 2018 score formula, M_e is 25 marks (out of 100) or μ + 3σ, whichever is greater. Here μ is the
mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a
scholarship/assistance. Admitting institutes may conduct further tests and interviews for final selection.

Prof. G. Pugazhenthii
Organizing Chairman, GATE 2018
(on behalf of NCB – GATE, for MHRD)

March 17, 2018

Digital Fingerprint: 44297b34e8ad7b79b012671fa7f5

The GATE 2018 score is calculated using the formula

\[ GATE \text{ Score} = S_q + \left( \frac{M - M_q}{M_i - M_q} \right) \]

where,
- \( M \) is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard
- \( M_q \) is the qualifying marks for general category candidate in the paper
- \( M_i \) is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
- \( S_q = 350 \), is the score assigned to \( M_q \)
- \( S_i = 900 \), is the score assigned to \( M_i \)

In the GATE 2018 score formula, \( M_q \) is 25 marks (out of 100) or \( \mu + 3\sigma \), whichever is greater. Here \( \mu \) is the mean and \( \sigma \) is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Codes for XE and XL Paper Sections (compulsory section and any other two sections)

XE: Engineering Sciences
A – Engineering Mathematics (compulsory)
B – Fluid Mechanics
C – Materials Science
D – Solid Mechanics
E – Thermodynamics
F – Polymer Science and Engineering
G – Food Technology
H – Atmospheric and Oceanic Sciences

XL: Life Sciences
P – Chemistry (compulsory)
Q – Biochemistry
R – Botany
S – Microbiology
T – Zoology
U – Food Technology

Graduate Aptitude Test in Engineering (GATE) 2018 was organized by Indian Institute of Technology Guwahati on behalf of the National Coordination Board (NCB) – GATE for the Department of
Human Resource Development (MHRD), Govt. of India.

Prof. G. Pugazhenthil, Organizing Chairman, GATE 2018 (on behalf of NCB - GATE for MHRD)

### The GATE 2018 score is calculated using the formula

\[
GATE\ Score = S_e + \left( S_g - S_a \right) \frac{M - M_e}{M_g - M_e}
\]

where,
- \(M\) is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard
- \(M_e\) is the qualifying marks for general category candidate in the paper
- \(M_g\) is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
- \(S_e = 350\), is the score assigned to \(M_e\)
- \(S_g = 900\), is the score assigned to \(M_g\)

In the GATE 2018 score formula, \(M\) is 25 marks (out of 100) or \(\mu + \sigma\), whichever is greater. Here \(\mu\) is the mean and \(\sigma\) is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

The GATE 2018 score is calculated using the formula

\[ GATE \text{ Score} = S_e + \left( S_s - S_e \right) \frac{\left( M - M_e \right)}{\left( \bar{M}_e - M_e \right)} \]

where,
- \( M \) is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard
- \( M_e \) is the qualifying marks for general category candidate in the paper
- \( \bar{M} \) is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
- \( S_e = 350 \), is the score assigned to \( M_e \)
- \( S_s = 900 \), is the score assigned to \( \bar{M} \)

In the GATE 2018 score formula, \( M_e \) is 25 marks (out of 100) or \( \mu + \sigma \), whichever is greater. Here \( \mu \) is the mean and \( \sigma \) is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.
