TWO-WEEKS FACULTY DEVELOPMENT PROGRAMME ON
SMART CITIES: Challenges and Opportunities
Under the Aegis of TEQIP-II
09th to 21st December, 2019

Organised by
Department of Civil Engineering
Z.H. College of Engineering & Technology
Aligarh Muslim University
202002 – India

About the University
The Aligarh Muslim University (AMU) is one of the oldest and largest public universities in India. It was originally established as Muhammadan Anglo-Oriental College in 1875 by one of the greatest philanthropists of that time Sir Syed Ahmad Khan. Spread over an area of 129.6 hectares in the city of Aligarh, Uttar Pradesh, AMU offers more than 100 courses in both traditional and modern branches of education. In addition to this, it has three off-campus centers at Maladpura, Marwaribad and Batala.

About the Department
The Department of Civil Engineering has been contributing in the cause of engineering education and training right since its inception in the year 1955. It was started with offering regular undergraduate course in civil engineering and gradually leads to offer post-graduation and doctoral thesis. It has four different sections covering wide range of civil engineering courses that includes Structural, Hydraulic, Environmental and Geotechnical engineering. The department has well qualified faculty, supporting staff and laboratories. It is actively involved in research projects of national and international repute. The faculty members have published significant number of research papers in international / national journals and have been conferred with many prestigious national awards. Besides other, the department is actively involved in smart city projects that are under implementation at Aligarh, Bareilly and Agra.

Objective of the Program
This program focuses on the learning and faster understanding towards small city initiative of the government. It shall cover wide range of topics on smart city development and its efficient management of infrastructure such as water, energy, traffic, housing, e-governance and economic growth for better quality of life for its citizens. The program will also enhance the knowledge of faculties through interaction with Eminent personalities from industries and academics. The knowledge sharing will improve the teaching learning process, helpful for the students and benefitted to the society.

Who can participate?
Faculty Members and Industry Professionals and any other interested individual can apply.

Registration Fee (per participant)
Academic Institutions/Participates: Rs. 3000/-
Professionals: Rs. 5000/-
For outside participants limited accommodation may be available in the university guest house on payment basis as per university rates.
