National Council for Promotion of 
Urdu Language (NCPUL)

National Seminar-cum-Workshop
"Modernization of Unani Pharmacy: Need and Importance"

Venue: Faculty of Unani Medicine

14-15 November, 2015
Welcome:
We extend our cordial invitation to all scientist, research scholars and students to participate in this national event and share their view and experience for the development of Unani Pharmacy.

Objective:
The Pharmacological products / dosage forms are the sheet anchor in the medical and healthcare program and pharmacy is the custodian for this noble cause. Repute or disrespect to the medical system depends on what the pharmaceutical industry places in hand of health care professionals. Present day demands of Unani products, fast pace of emerging Unani Pharmaceutical industries, large scale production and finally to provide the better compliance of patient as well as achieve the global acceptance have set the challenge to Unani pharmacy for paradigm shift towards modernization with adaptation of novel pharmaceutical techniques and technologies. The classical dosage forms of Unani Medicine and their conventional manufacturing procedures are doubt are being followed by most of the physician and pharmacists. Though they are at par in terms of safety and efficacy rather time consuming, tedious, costly and difficult to apply those on large scale industrial production and they are not globally acceptable because their safety markers and SOPs couldn’t be established. So now it is time to consider for redesigning of the classical dosage form with the help of modern techniques for better compliance of patient as well as to achieve the global acceptance without losing therapeutic benefits of classical approaches.

Keeping in view of above Dept. of Saidla is going to conduct Two day National Seminar cum Workshop on 7-8 November, 2015, to find out a protocol and guide line for Unani formulation by incorporating recent advances taking place in the field. Further, in the workshop the invited lectures of eminent persons from Unani and Modern pharmaceuticals will also be delivered for the benefit of the participants.

Themes:
- History of Unani Pharmacy
- Safety and efficacy studies of Unani formulations
- Nano – Technology and its application in Unani Medicine
- Regulatory framework and guidelines for herbal medicine
- Standardization of raw materials, manufacturing processes and finished products
- Globalization of Unani formulations: Scope, challenges, opportunities and development Strategies
- Enhancing the Quality of Pharmacy Education and Research to meet Global Challenges.
- Pharmaceutical analysis & quality assurance
- Pharmaceutical management and pharmaceutical economics
- Cultivation of medicinal plants

Call for Abstracts:
The participants are cordially invited for presentations on the main or the related topics of the Conference in Urdu / English. Abstract should be submitted on or before 15/09/2015 which will be subsequently reviewed by panel of experts.
