An International Workshop on

Publishing in High Impact Journals

Z. H. College of Engineering & Technology, A.M.U., Aligarh

April 25, 2017

Synopsis

Being able to write good journal article is becoming a key ingredient for successful appraisals, promotions and career mobility. The main objective of the workshop is to enhance the writing skills of academicians, researchers and students to reach a level that is necessary for journal publication. The program comprises of lecture sessions on how to write abstract, introduction, methods, results and discussion sections. Numerous examples are provided to guide the authors to build convincing sentences and arguments using suggested phrases and words. The facilitator will share his experience as the former Editor of IEEE Transaction on Sustainable Energy to provide insights on how to handle the reviewer's comments and strategies to get the paper accepted. The workshop will also touch on the ethics of publication and plagiarism.
