CHAIRMAN

Ref 1772/OP/OM(DC)19

Dated: 16.12.2019

ENQUIRY FORM

M/S _____

Dear Sir,

Sealed quotations /tenders are invited for the following articles on the terms and conditions printed overleaf.

QUOTATION should reach this office on or before 06th **January-2020** by 3:00 P.M. positively.

S.No.	Approximate quantity	Particulars/ Specifications
1.	01	Handheld Autofluorescence Device for Screening of Oral Cancer Handpiece should have at least 15 1W blue LEDs light arranged in a circular array around the patient side optical viewing window. This is an essential feature since the entire performance of the device depends on accurate visualization and reduction in light intensity due to lesser number of LED lights may result in inadequate illumination and inaccurate visualization. Should allow clinician to perform the examination without any goggles Device should use only Rechargeable Batteries provided by manufacturer for enhanced safety. It should not allow for operation with commercial batteries like CR123A that have a higher risk of explosions associated with them. The system should have an Integrated Imaging System with Adapter so that camera system/iPod can attach directly to the device. System should be pre-loaded with a state-of-the-art Application (App) that makes framing and acquiring clinical images simple and intuitive and provide a seamless path for screening, clinical documentation, and case collaboration. The system must be US FDA approved and certified. Device should have FDA approval indicated to aid in determining margin for surgical excision of lesion.
