Applications are invited for one post of *Project Assistant* in the DBT-funded project. The post is purely temporary and co-terminus with the project. Details are given below:

Project title: Designing, construction and use of FRET-based genetically encoded nanosensor for real-time imaging of reactive oxygen species in living cells.

Activity: Construction, expression and purification of nanosensor; *In vitro* characterization of nanosensors; Generation of affinity mutants of in-house designed sensors; and Spectral analysis and *in vivo* monitoring of ROS by nanosensors in bacteria, yeast and plants

Emolument: Rs. 10,000/- per month (Consolidated)

Minimum Qualification: Passed M.Sc. in Botany/Biotechnology/Biochemistry/Bioscience/Life Science with at least 55% marks.

Desirable: Knowledge of primer designing for PCR and cloning purposes; Protein purification from plants; recombinant protein expression and purification, SDS and native PAGE; and development of nanosensor

How to apply: Candidates may send their applications to the undersigned by hand, post or e-mail with mentioned below documents/information:

(i) Motivation/Cover letter; (ii) Curriculum vitae detailing Education/Employment/Experience and full contact information; (iii) Copies of the certificates/degrees and mark sheets (from 10th onward); and (iv) Names of at least 2 referees with their full address/affiliation, e-mail IDs and phone/mobile numbers

Application deadline: 12th June 2017

Only short-listed candidates will be called for interview. No TA/DA will be paid for attending interview.
