

INTRODUCTION

The Short Term training Programme on "Traditional & Modern Materials and Techniques of Façade Adornment in Islamic Structures" is the first step taken by Heritage Cell in collaboration with Centre for Excellence in Islamic Architecture, Department of Architecture to revive the traditional materials and techniques of façade treatment and to restore the incredible heritage at Aligarh Muslim University.

OBJECTIVE

This Training Programme is a platform to recognize and revive the traditional knowledge system of construction and the material used in the Heritage Buildings which is getting obsolete day by day. It will help in understanding the importance of Cultural Heritage and will revive the traditional materials like lime and lime mortar and techniques like Islamic Calligraphy, Stone Carving, Stone Inlay and Chemical Cleaning in lime plaster.

TARGET GROUP

The Training Programme is intended to benefit Consultants, Professionals, Engineers, Architects, Faculty, Research scholars and students working in the field of Architecture and Civil Engineering.

ACCOMODATION

Accommodation in various hotels at nominal tariffs will be arranged on advance intimation. Limited accommodation is also available in the university guest house.
