FOR WIDE PUBLICITY

APPEAL TO FACULTY MEMBERS AND STUDENTS

Dear Faculty Members and Students,

It is gratifying for me to share with you all that our university has been seeing upswing in the ranking charts among top ranking educational institutions of our country. In the last two and a half years, AMU has seen its best ever performance in the National Institutional Ranking Framework, the official ranking agency of the Ministry of Human Resource Development, 2nd best in US News and World Report, and 3rd best in India Today. It has been a fulfilling year for the University; however, we need to continue our good work as there is always space for improvement.

Throughout the history of Aligarh Muslim University, faculty members and students especially research scholars have played a very unique and important role in the academic and research advancement of the University at national as well as at global level. The best research outcomes often emerge from quality publications and state of art teaching and research by teachers and students. In the coming years, we need to consolidate our past experiences and work hard for getting quality research publications both in the form of journal articles and books. Worldwide recognition often comes from work citations known in the world of academia of respective discipline, hence, our emphasis should be on quality of research rather than on quantity.

As a top-ranking academic institution, we also need to focus on our in-house journals, especially publishing articles in languages other than English (in the field of humanities and languages) need to be made much more rigorous and peer-reviewed, while selecting the articles for publication.

Through our hard work, excellent teaching, quality publications, patents, and state of the art infrastructure facilities available in our campus, we will be able to make AMU a truly top class University in the world.

Looking forward for your continued support and cooperation.

Tariq Mansoor
